CONSULTANT (RESEARCH)	\$250 <sup>5</sup>	\$775	\$1,025
ASSOCIATE	\$550 <sup>5</sup>	\$375	\$925

Notes:

- Membership is on a January 1 to December 31 basis.
- Base dues are prorated on a quarterly basis. If a company joins in the 3<sup>rd</sup> quarter of given year, they owe dues for the 3<sup>rd</sup> and 4<sup>th</sup> quarter of that year. Companies joining the Pennsylvania Chapter in December, and paying in base dues in full, will have those dues applied to the following year, but their membership will begin immediately (i.e. dues will not be prorated for the 4<sup>th</sup> quarter in the year they join).
- Admixture, Aggregate, Fly-Ash, Material and Equipment Allied members that do business exclusively in one Chapter are designated as "Local Allied Members." They can join the Pennsylvania Chapter only, or also join ACPA-National. For companies that qualify as "local" and join through the Chapter, the Chapter forwards on behalf of the company the National Dues received, if they elect to join National.
- Admixture, Aggregate, Fly-Ash, Material and Equipment Allied members that do business within multiple chapter areas are designated as "National Material Members" or "National Equipment Members." They must join both the Chapter and National. After joining, all subsequent dues will be invoiced directly by National for the minimum dues in the company's Sales Category tier (see Allied National Dues structure or contact the Chapter for more information). National will forward the dues to the appropriate Chapter.
- All Ready-Mixed Concrete, Trucking, Bonding, Association, Associate, and Consultant classifications of allied members can join the Pennsylvania Chapter and are not required to also join ACPA-National, regardless of whether or not they do business within multiple chapter areas.
