

425-07-06

**DATE:** November 26, 2007

**SUBJECT:** PENNDOT Certified Concrete Technician Program and  
2007-2008 Schedule of Certification Classes

**TO:** All District Executives

**FROM:** Richard H. Hogg, P.E /s/ David J. Azzato for RHH  
Deputy Secretary for Highway Administration

The Bureau of Construction and Materials (BOCM) is pleased to announce the schedule for PennDOT Certified Concrete Technician Certification classes has been established and posted on the Northeast Center of Excellence for Pavement Technology (NECEPT) website at [www.superpave.psu.edu](http://www.superpave.psu.edu) . The schedule of classes, registration forms, and directions to participants are all located at the referenced website. Courses will be held in the remainder of 2007 and early 2008.

Due to the continued conversion of technicians from the old program, it has become necessary to implement a temporary modification to our current policy regarding these classes:

Any technician who held valid certification which expired in 2007 will have their certification extended until April 30, 2008 to allow these individuals the opportunity to be recertified. In addition, anyone who held valid ACI field certification for 2007 will be allowed to register and take the course to obtain their initial certification during the same time frame.

These measures are ONLY for the 2007-2008 class season and will not be continued after April 30, 2008. The Department's Publication 536 – Concrete Technician Certification Program will not be modified as this is a temporary measure.

Any consultant or contractor that has 40 students and is willing to host a session of the course may request additional courses by contacting Joseph S. Robinson, P.E., at 717-787-4794. Mr. Robinson is the point of contact for questions regarding the program and this letter.
