Engineers. Scientists. Innovators.

GAI's people are the key to your success.

We've been providing clients with innovative, cost-sensitive project solutions for over 50 years, utilizing our most valuable resource - our people. From transportation and traffic engineers, to environmental and cultural resources specialists, to concrete and geotechnical testing scientists, we're providing clients with better, more effective solutions to their project needs.

For more information, visit our website at www.gai.com. GAI is a 501(c)(3) non-profit, non-union, multi-disciplinary engineering and environmental consulting firm, serving our clients worldwide in the areas of transportation, civil, water, mechanical, electrical, and industrial systems. Our offices throughout the Northeast, Midwest, and Southwestern United States.

EXPRESS POLYMERS

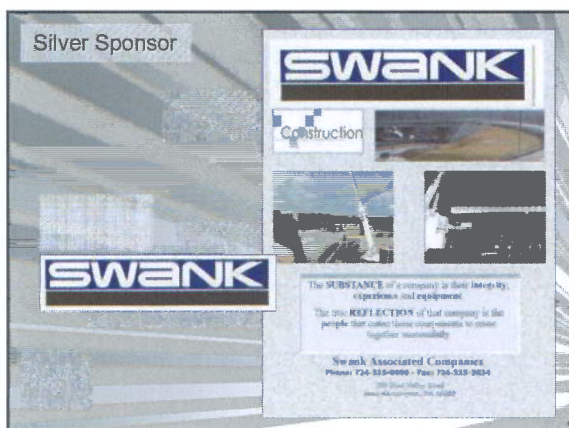

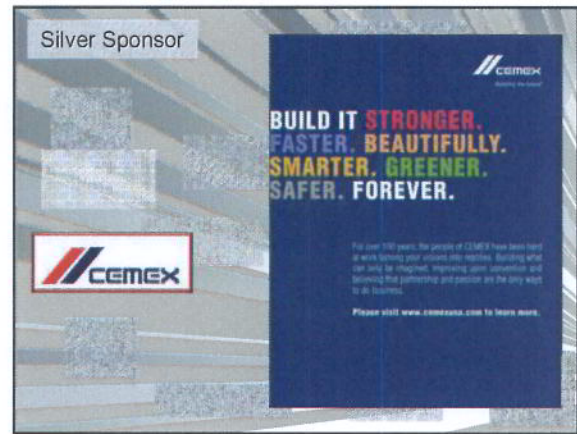

"Delivering Knowledge, Superior Concrete Solutions and Solid Results to save our Transportation Infrastructure"

Your source for **10-Minute Concrete Mender** for road tough repairs that:

1. Are fast AND PERMANENT for concrete pothole and crack repairs or grade matching (IDEAL for saving bridges). "The real pothole terminator!"
2. Have no temperature or dimensional constraints.
3. Need only simple surface preparation - no square cuts needed.
4. Don't contain epoxy that shrinks, degrades and pops out.
5. Are used to repair LMC overlays and newer concrete mix designs.
6. Are used to create tough polymer concrete that stays in place permanently!

Why aren't you using MENDER to save time and money?
Also, use our Gal Seal 7 for lifetime concrete waterproofing with one application

For information Call Curtis Weidner or Nelson Tonst at 412-221-5141

Sleep easy. For three years.

Putting your trust in a conventional blade shell assembly can be costly. Sleepy enters the business, offering the most important components of the saw, leading you thousands in damaged parts, diamond blades, and handles.

Our Sleepy Present Stone Blade shell assembly saves jobsite and other material cost. The blade shell assembly has a built-in, and low-speed gearbox on board by a three-year warranty.

Consider 3 pieces of solid from the concrete cutting expert.
